

November 9, 2016

Mr. Donald J. Trump
President-Elect
725 Fifth Avenue
Trump Tower
New York, New York 10022

Dear President-Elect Trump:

The Society for Women's Health Research (SWHR ®) would like to extend their sincerest congratulations to you as President-Elect for the United States of America.

SWHR, a national nonprofit organization located in the heart of Washington, D.C., is the thought-leader in promoting research on biological differences in disease. For more than 25 years, our organization has brought attention to the variety of diseases and conditions that disproportionately or predominately impact women, and is dedicated to transforming women's health through science, advocacy, and education.

As you shift into your presidential transition planning, SWHR hopes that you will strongly consider championing the continued research and funding of the study of sex differences in diseases and medication use, mental health, violence against women, and other important health policy issues that affect women.

If you have any questions about SWHR or would like more information on these issues, please contact me at 202-496-5003 or heather@swhr.org.

We hope you will make women's health a prominent component of your presidency. Congratulations and we wish you the best of luck as President of the United States.

Respectfully,

A handwritten signature in black ink that reads "Heather Boyd".

Heather Boyd, MPP
Director of Public Policy
Society for Women's Health Research
