

July 28, 2016

Mr. Donald J. Trump
Donald J. Trump for President
725 Fifth Avenue
Trump Tower
New York, New York 10022

Dear Mr. Trump:

The Society for Women's Health Research (SWHR ®) would like to extend their sincerest congratulations to you as the Republican nominee for President of the United States.

SWHR, a national nonprofit organization located in the heart of Washington, D.C., is the thought-leader in promoting research on biological differences in disease. For more than 25 years, our organization has brought attention to the variety of diseases and conditions that disproportionately or predominately impact women, and is dedicated to transforming women's health through science, advocacy, and education.

As you transition into your general election campaign, SWHR hopes that you will strongly advocate for the continued research and funding of the study of sex differences in diseases and medication use, mental health, violence against women, and other important health policy issues that affect women.

We hope you will make women's health a prominent component of your campaign. Congratulations and best of luck in the upcoming general election.

Respectfully,

A handwritten signature in black ink, appearing to read "Heather Boyd".

Heather Boyd, MPP
Director of Public Policy
