

**Promise of “Big Data” in Women’s Health:
Opportunities and Challenges in Clinical Research and Healthcare Delivery**

May 5, 2016
8am-11:30am
The Ritz-Carlton
Plaza Ballroom
1150 22nd Street, N.W.
Washington, DC 20037

AGENDA

- | | |
|---------------|--|
| 7:30-8:20 am | Registration and Breakfast |
| 8:20-8:30 am | Welcome Remarks
Phyllis Greenberger, MSW, President and CEO, SWHR |
| 8:30-9:40 am | Panel 1: The Promise and Reality of Big Data and Analytics: Advancing clinical research in women’s health.
Focus of this panel is on the use of data and data analytics in women’s health in order to achieve better trial design, advance drug development and improve diagnosis.
How can we use existing and newly generated systems biology data, clinical trial data and real world evidence to advance clinical research and improve treatments in women?

Moderator: Andreas Kogelnik, MD, PhD, Open Medicine Institute, CA
Panelists:
Patrick Hurban, PhD, Quintiles
Steve Kenney, Premier Research Services
Mark Berger, MD, Pfizer |
| 9:40 -9:50 am | Break |
| 9:50-11:00 am | Panel 2: Big Data Applications and Tools: Improving Healthcare Delivery in Women.
Focus of this panel will be on ways to leverage big data using novel and existing tools to improve healthcare delivery and quality.
What are the latest tools and platforms to improve healthcare quality and delivery in women? |

Moderator: Nieca Goldberg, MD, Medical Director, Joan H. Tisch Center for Women's Health, NYU Langone

Panelists:

Anna McCollister-Slipp, Galileo Analytics

John Wilbanks, Sage Bionetworks

Franziska Moeckel, MBA, Inova Center for Personalized Health

11:00-11:30 am

Perspectives from NIH on Data and Precision Medicine

Josephine Briggs, MD, NIH

Introduction by Daryl Pritchard, PhD, Precision Medicine Coalition

11:30-11:40 am

Closing Remarks, SWHR

Monica Mallampalli, PhD, Vice President of Scientific Affairs, SWHR

11:40 am

Adjourn
