

SWHR STRATEGIC FRAMEWORK: 2024-2026

MISSION: Advance women's health through science, policy, and education while promoting research on sex differences to optimize women's health.

VISION: Make women's health mainstream.

CORE FUNCTIONS

SCIENCE

Understand disparities facing women and how sex, gender, and hormones affect health.

Convene interdisciplinary stakeholders to provide expert analyses on topics related to women's health.

Identify research opportunities, health care gaps, and unmet needs for women's health across the lifespan.

Leverage expert analyses to create science, policy and educational materials that advance women's health.

POLICY

Champion policies that promote the health of all women.

Translate the scientific evidence base into policies and practices that reduce disparities and improve the health of women.

Act as a source of expert guidance to policymakers seeking to address issues of sex and gender differences and women's health.

Support and advocate for diverse representation of women across all levels of science.

EDUCATION & OUTREACH

Drive the national conversation on women's health, sex differences research, related disparities, and unmet needs.

Serve as a trusted, objective source of information and education on women's health and sex differences research.

Amplify diverse voices, unmet needs, and opportunities in women's health.

Create and disseminate engaging, scientifically-driven content for diverse audiences on women's health and sex differences research across the lifespan.

CORE VALUES
